Thin Film Metrology
Spectroscopic Reflectometry Systems

NanoCalc systems come with a spectrometer, light source and USB interface and require software and a reflection probe, which are available separately. Also available is an extensive range of add-on software, optical fibers and metrology accessories.

With NanoCalc systems, you can select from among four models, several software options, reflection probes and optical fibers, and more than a dozen accessories designed to accommodate microscopes, mapping stages and more. Preconfigured versions for VIS and XR are now available. Custom options for the thick and transparent films are also available. Here are your options:

Selecting Your NanoCalc System

Model	Wavelength Range	Optical Layer Thicknesses
NANOCALC-VIS-PRECON	400-850 nm	50 nm-20 µm
NANOCALC-XR-PRECON	250-1050 nm	10 nm-100 µm
NANOCALC-DUV	~200-1100 nm	1 nm-100 µm
NANOCALC-NIR	900-1700 nm	100 nm-250 µm

Selecting Your NanoCalc Software

Additional Accessories
NanoCalc systems are available with accessories for use with microscopes, mapping stages and various mounting configurations. Here are some of our most popular accessories:

Reference Wafers
We offer two Si-SiO2 reference wafer options for measuring the thickness of thin, transparent films on substrates such as silicon wafers and optical layers. The STEP-WAFER covers UV-VIS wavelengths and the STEP-WAFER-600-1100 covers VIS-NIR wavelengths. Each wafer is a 100 mm diameter, 5-step wafer with calibrated thickness range of 0-500 nm or 600-1100 nm.

Reflection-Transmission Stage
The versatile STAGE-RTL-T is a handy tool for reflection and transmission measurements of various substrates (for transmission setups you'll need two extra optical fibers). The STAGE-RTL-T consists of a variable rail, fiber holder, sample holder and light trap and comes with two collimating lenses.

Single-point Stage
The STAGE is a Single-point Reflection Stage for measurement of non-transparent samples. It's a good option if you're also using a reference wafer, as the wafer fits nicely on the base plate of the stage.
